

## **Slings & Things Sling Library**

Don't you have a wrap or carrier yet? Would you like to try one before you buy your own wrap, carrier or mei-tai? Or do you just want to try out a different option? That's possible with our Sling Library!

### **The rules**

Select the item you want to borrow and put it in your cart. You pay the price of the item as shown, that is the deposit. Slings & Things will send the item to you with a returning info in the box. You can lend the item for a maximum of 3 weeks. The costs are €7,50 a week + shipping costs to your country. As soon as Slings & Things has the item back in good shape, with all extra's included, we will check how long you had the item. That amount (rent + shipping costs) will be collected from the deposit and the rest of the deposit will be refunded to your account. Simple as that! For any accessories like an infant insert or teething pads we will charge €2,50 a week extra.

### **More information about the costs**

For lending an item you will pay €7,50 a week. For 2 weeks you pay €15,00 and for 3 weeks you pay €22,50. Do you return the item later than one week, the extra costs are €1,50 per day. This also goes for items that we get back later than 3 weeks. For the accessories we charge €2,50 per week extra, do you send these back too late, then the costs are €0,50 per day.

### **FAQ**

*Can I reserve an item?*

No, that isn't possible. You can check the availability on our website. If the item of your choice is out of stock, you can't lend this. You can put yourself on the waitinglist. When the item is returned to us you will get an e-mail.

*How does it work to return an item?*

Send the item from the Sling Library back to us when you are done with it. Include all accessories and the manual. The costs for returning the item to us are for your own bill.

*I have pets, can I lend an item from the Sling Library?*

Yes, that's no problem. Please make sure your pets don't come near the wrap or carrier, the person that lends the item after you can have allergies.

*Something broke during our lending-period. What do I have to do?*

You are responsible for the items you borrow. Be careful with the products as if they are your own, and let us know when something happens to it. Depending on the defect, it is possible that (a part of) the costs will be charged. If you don't mention the defect to us and we find out when the item is returned, it's possible we will keep the full deposit.

*Do I have to wash the product after I use it?*

No, we will wash the product when it gets back to us. Did the borrowed item become very dirty, perhaps by accident by your child, then we'd appreciate it if you wash the item before returning it to us. You can ask us first if you are in doubt.
